

America Rocks

In terrible days and horrible shocks
Always remember that America rocks
When the Enemy aims and the trigger cocks
Always remember that America rocks
Cowardly Monsters won't break our locks
Always remember that America rocks
We have the right to think outside the box
That's how I know that America rocks

I am American
I know I'm free
I will not be frightened
From sea to shining sea

Our different cultures have endured hard knocks
Always remember that America rocks
From farms and mountains to city blocks
Always remember that America rocks
In the beautiful skies and harbor docks
Always remember that America rocks
Freedom ticks forever I can hear the tocks
That's how I know that America rocks

I am American
I know I'm free
I will not be frightened
From sea to shining sea

Bless all Americans
Bless all Americans
Bless all Americans
From sea to shining sea
