

Butterflies in Heaven

Verse 1

Sweet brown eyes; so soft with care
I'll always remember the love you shared

I watched your sunrise; then move to mid-day
In your summer sunset; you passed away

You lived your life hard; you lived your life well
You left me fond memories and great stories to tell

You were all that is good; you were all that is right
The stars shone brighter on that sad summer night

Chorus

But I know that you're up there happy sitting watching butterflies in heaven
(Repeat once)

Verse 2

In your youth; you loved to explore
And in your old age; you would not ignore

The wonderful sounds; I never could hear
Your passion for life is something I hold dear

Seasons went by; sun and snow
Your cycle of life; I saw come and go

You're still in my thoughts; you beat in my heart
A love at this level never can part

(Chorus twice)

Bridge

Live your life for day and night
Live your life if you're wrong or right
Live your life with all your might
Live your life and watch it take flight

(Repeat Verse 1)

(Chorus four times)
